Description

Having proven to be one of the most successful automobiles built by Ferrari, the iconic Dino 246 GT paved the way for the innovative mid-engined marques, with a design legacy that continues to provide inspiration to modern Ferrari. The L-Series served as the direct successor to the 206 GT, now considered the 'bridge' between 206's and 246 GT. With only 355 examples leaving the factory, the L-Series models are considered the rarest and most desirable. Key distinguishing features include their Centre Lock 'Knock Off' wheels, fixed seat headrests and a passenger foot-well bar. This particular example was produced in 1970 and Italian delivered. It remains correct and with matching numbers. For more information about this 246 GT Dino, or to arrange an appointment, please contact a member of our sales team on 01474 874555 or 01575 430430.
